STEM Women
Connecting the STEM Women student and graduate community to inspirational employers in science, technology, engineering and mathematics
About STEM Women

We run graduate careers events and promote jobs aimed at university students and recent graduates who identify as women or non-binary, and study a STEM-related subject; science, technology, engineering, or mathematics.

Our events allow students and recent graduates to network with a range of top employers, hear talks from a range of representatives working in STEM, and get inspired to follow in their footsteps.

Alongside our general STEM career events, we run industry specific events, and bespoke career events for companies who are looking to recruit more diverse candidates.

700+
Employers have exhibited with us since February 2018.

80+
Events held across UK, Ireland, Europe and Australia since 2018.

45,000+
Students have registered for an event since autumn 2020.

100,000+
Page followers across our social media accounts.
“I received an offer for an Aerospace Engineering 12 month placement, which all came from a connection I made at the STEM Women event. Thank you so much for letting me come along!”

Lauren, Aerospace Engineering student

STEM Women Manchester Event, October 2023
In 2022 the representation of Women In STEM is still only **26%**

![Bar chart showing representation of Women and Men in STEM from 2015 to 2019. The percentage of Women is consistently lower than that of Men.](chart.png)
Engineering

- Women: 12%
- Men: 88%

Tech

- Women: 19%
- Men: 81%
Barriers to success

We asked respondents to identify the biggest barrier they felt could prevent them from pursuing their chosen career path. We gave respondents a variety of ‘barriers’, of which they could only choose one.

What do you think is the biggest barrier to overcome if you would like to pursue any career path you wish?

- Lack of network or contacts
- Lack of experience
- Strong competition
- Shortage of jobs
- Lack of confidence
- Lack of role models or mentors
- Lack of sector or career knowledge
- My ethnicity
- My economic background
- My gender

How can you best sell yourself and your skills at a recruitment event?

- Do your research
- Be ready for opportunity
- Know what you're looking for
Go with an open mind!
You're in the right place..
"Be true to yourself; be authentic; know your value and your contribution"
